The Central standard meridian passes through New Orleans, La. St. Louis, Mo., is about one minute in time west of it and Chicago about ten and a half minutes east of it.

The Mountain meridian passes through the Rocky Mountains very near Pike's Peak, Col.

"The Wilkes-Barre Record apologetically submits a number of business cards, invitations, dance orders and circulars, which are as clean, sharp and neat as could be desired. Samples sent are chosen without regard to extra skill, and to give an idea of the average workmanship of the establishment, for all of which we think the Record is above the average."—*American Model Printer, N. Y.*

"The Wilkes-Barre Record job office sends a selection of specimens of their work, all well printed and evincing care and thought. A silver and black specimen is particularly good in execution."—*Art Age, N. Y*
